Poynton Area Community Partnership

The Poynton Area Community Partnership (PACP) is part of a network of partnerships across Cheshire East, and is an independent group of like-minded councillors, officers and volunteers who represent the interests of Poynton, Adlington, Disley, Mottram St Andrew, Prestbury, Kettleshulme and Pott Shrigley. This group strives to improve the quality of life for people in this area. The group is a key player in the Cheshire East Partnership Framework.

The PACP works together to make Poynton and those parishes listed above attractive places where people want to visit, live, work and spend their leisure time. It has a vision to make its residents and neighbourhoods more connected, to promote a strong sense of place by supporting civic pride projects, and to encourage socialising and health and wellbeing activity.

The group's current Chairman is Cllr. Mrs Sarah-Jane Gilmore who is keen to bring our local communities together, is passionate about promoting civic pride and driving forward meaningful projects in the wider local area.

Connected Communities and funding

To assist with community engagement, the Poynton Area Community Partnership has been given funding from Cheshire East Council. Voluntary groups and organisations based in Poynton and the above parishes are invited to apply for modest grants to help fund projects whose aims are aligned with the vision and meet one or more of the criteria detailed below:

- That our communities are strong and supportive
- Poynton and neighbouring communities

have a strong and resilient community

- People have the life skills and education to thrive
- Poynton and neighbouring communities are green and sustainable places
- People live well for longer.

We particularly welcome projects, events or programmes that can be shown to benefit our communities as a whole, and that are also sustainable.

Community venues across Cheshire East are being branded '*Connected Communities Centres*' in a scheme to make a wider range of activities and support services available on your doorstep. The Centres aim to deliver services tailored for their community, so there's something for everyone. Venues are nominated to become Connected Communities Centres by their local Neighbourhood Partnership.

Poynton Area Community Partnership agreed that Poynton Civic Hall should be the Connected Community Centre for the area, and this was launched in February 2018. It means that Poynton Civic Hall has a computer tablet located at reception which connects to both Cheshire East Council's *Live Well* community information website so you can easily find information, advice, activities and services in your area and Poynton Town Council's website. Also, funding has been made available which can contribute towards room hire at Poynton Civic Hall for projects that support the delivery of services which tackle local issues.

For more information about Poynton Area Community Partnership please see www.poyntontowncouncil.gov.uk/poynton-area-community-partnership.htm

Introduction

This booklet has been prepared by the Poynton Area Community Partnership (PACP) to increase awareness and to inform you, our residents, about the many social and voluntary groups in your local area.

Having a hobby and socialising with like-minded people is good for everyone's health and well-being, and we hope this booklet will give you the basic information you need to help realise those benefits.

Interested in joining a group but are worried about going on your own? We understand, but all the groups who have provided information for this promotional booklet have assured us that newcomers will be given a warm welcome.

If you know someone who may be lonely or on their own, but you think would like to be involved with a group,

please think about encouraging and supporting them to attend.

Being lonely doesn't just affect older people, but statistics show that it is a worrying and major problem.

The leader of Britain's GPs, Dr Helen Stokes-Lampard says 'being lonely can be as bad for someone's health as having a long-term illness such as diabetes or high blood pressure'.

While GPs see patients who might have lost their partner, husband, wife, and who might have multiple health problems like diabetes, hypertension and depression, often their main problem isn't medical - they're lonely.

See some interesting and stark facts and figures about loneliness at the back of this booklet.
